With the aim of providing useful information about its activities and results during the previous year, the Cyprus Stock Exchange (CSE) publishes also for 2008, the CSE's Fact Book. This publication is compiled so as to provide necessary information to investors and market participants in the capital market of Cyprus.

The Fact Book is comprised of six basic parts. The first part focuses on the CSE Indices' performance. The second part summarises the results of trading for the year 2008 and the third part presents information regarding market capitalisation. The fourth part includes tables with summarised information of funds raised in the market. The fifth part briefly describes Central Registry/Depository statistics. Similarly to previous Fact Books, the last part provides information about listed issuers and CSE Members.

This year's edition of the Fact Book is published only in electronic form, which is available at the Stock Exchange's website (www.cse.com.cy) or on CD-ROM available at the CSE offices.
