### With regards to the CSE's co-operation with the Moscow Stock Exchange

#### Russian delegation visited the CSE

The CSE recently met with the Moscow Stock Exchange (MICEX). The meetings took place when representatives of MICEX visited Cyprus and met with the President and General Director of the CSE, Mr. George Koufaris and Mr. Nontas Metaxas respectively. During the meetings, Mr. Koufaris and Mr. Metaxas informed the Russian delegation of the advantages the CSE offers foreign companies as well as foreign investors.

Once they had referred to the positive outcomes of Cyprus' accession to the EU and to the Economic and Monetary Union (EMU), they outlined the modern framework in which the CSE operates, which is based on the rules and regulations of the EU.

A special mention was made regarding the aim of the CSE to perform a regional role in our geographical area while also mentioning the co-operation agreements that have been signed with the stock exchanges of Athens,

Malta, Romania, Egypt etc. In addition, the CSE's representatives discussed with the Russian stock exchange delegation the subject of the legal proceedings of GDRS Russian companies. The aim is to take advantage of the Russian deposits in Cyprus and the Russian investment firms which are listed and are active in the EU for mutual benefit. The Russian delegation also met with the Minister of Finance, Mr. Charilaos Stavrakis.

The Russian delegation comprised the President of MICEX, Mr. Alexander Potemkin, the vice president, Mr. Gennadiy Margolit, the public relations manager, Mr. Alexey Gerasyuk, the head of international relations, Mr. Andrey Tsvirev and the deputy manager Mr. Mikhail Temnichenko.

It is worth noting that the President of the CSE, Mr. Koufaris, recently visited Moscow as part of a large business delegation from Cyprus, where he talked about the CSE with Russian businessmen.

The Cyprus Stock Exchange (CSE) is establishing a modern frame of operations

In order for every stock exchange to transmit the necessary credibility, it is imperative that is modernises its procedures, promotes modern reforms and generally keeps up with the capital markets' new developments.

The CSE, whose main aim is to become a modern, regional stock exchange in our geographical area, gives great importance in establishing new institutional laws and regulations that will empower its credibility and its correct operations.

Within this context, the Board and Management of the

### The CSE awards top students in economic subjects

As part of its social contribution, the Cyprus Stock Exchange (CSE) awards top students in economic subjects. In this context, it awarded a prize of €1,700 to a top fourth-year student of the public administration and business administration department of the School of Economic Sciences and Management of the University of Cyprus. The prize giving took place on June 24, 2008 and was conducted by the Vice President of the CSE, Mr. Demetris Papadopoulos, who congratulated the

student on her accomplishments. The student, Victoria Andreou, received the distinction during her outgoing year due to her academic achievement, her show of capabilities as well as her social contribution to the academic community. The awarding of the top student of the School of Economic Sciences and Management of the University of Cyprus is an institution that has been set by the CSE in the past years, in order to encourage students in economic subjects.

## The Cyprus Stock Exchange (CSE) is establishing a modern frame of operations

### CONTINUES ON PAGE 1

CSE have undertaken many initiatives in the past years with the aim of having Cyprus gain a stock exchange that is favourably comparable with all the developed stock exchanges of the world.

One of the most important initiatives that has been undertaken and successfully put into practice is the maintenance of the Central Register, which contains information on the stock owners of the listed companies. With operations of the Central Register falling under the CSE (it was previously held individually by each company) many advantages have been created which contribute to the smooth operation of the stock exchange.

The advantages include:

- The immediate briefing of the Central Register regarding every change that occurs in the listed companies, whether this takes place within the CSE or without.
- The responsibility for the correct and timely updating of the Central Register is with the CSE and not with every company individually.
- The CSE, as with every other interested party, has all the information regarding the listed companies at its disposal at any time.

In addition, the CSE has undertaken the processing of necessary transactions for the clearing and completion of stock exchanges, by updating the registers and the exchange of the monetary value of the transactions from the stockbrokers of the buyers to the stockbrokers of the sellers.

In addition, the stock exchange offers a number of register-related services for the companies of which it keeps the registers, as well as for the investors and the public in general. With the listing of any new

stock on to the Cyprus Stock Exchange, all transactions and registrations that take place and are related to the Register of Listed Companies are undertaken by the Central Register (which is controlled by the Cyprus Stock Exchange).

In order for an investor to be able to complete transactions on the CSE, he needs to open an Investor Share and Securities Account at the Central Depository / Registry. These two accounts are opened by the operators (stock exchange member or trustee) on behalf of an investor.

### CUSTODY SERVICES

A further innovation that the CSE has promoted is custody services. With the implementation of the Joint Platform CSE – Athens Stock Exchange, in accordance with international practices, a statute of custody has been introduced. Custody has an active role in the proceedings of clearance and settling of transactions that take place on behalf of clients, as well as for the opening of accounts on their behalf.

Guardians, according to the law, are credit institutions or companies offering investment services.

The guardian, towards whom a working certificate of buying and selling from a stock exchange member, according to Article 32 is able once he is correctly authorised by the investor to proceed with the following actions in relation to the share and the accounts of the said investor:

- To ask and collect information in relation to the share and accounts of the investor.
- To modify the data of the investor, as is filed at the Central Depository / Registry, except for the register number Share Investor.
- To transfer stock from the Investor's

Particular Account to the account of the Handler, of which the Handler is the as above guardian.

- To sign on the investor's behalf in the case of public offerings.

### CSE Services

In addition to clearing and settlement, the central register also offers the below services:

Transference of stock from stock exchange:

- In order for a transfer to take place outside the stock exchange, there have to fall within the providence of Article 23 of the Working Rule of the Central Stock Register.
- A transfer of stock takes place in three working days after the deposit of the necessary papers and bearing in mind that the above presupposition is valid.

### Pledging and de-flagging of securities

The pledging and de-flagging of securities takes place the same day bearing in mind that the relevant papers are correctly filled out and certified.

In addition, the CSE offers further services for its investors:

- Transfer of stock from the particular account (controlled by the CSE) to the handler's account.

### Internet services

The registered owners of the moveable stock are able to access and observe their shares through the Internet, if they become subscribers to this service.

Access is granted by invoking the unique subscriber number and unique personal security code, which is offered by the stock exchange after applying for the

specific service.

The annual subscription fee for the CSE on Line amounts to €8.50.

- Balance of account
- Inspection of register

Any person wishing to inspect the register of members of a company that has stock listed on the stock exchange will be able to do so, once he has gotten in touch with the stock exchange and has registered the specific form.

- Copy of register

Any person wishing to have a copy or part of the register of a listed company can do so, once he has filed the specific request.

- Change of date – error correction

The registered owner of listed stock will be able to inform the stock exchange of any changes or corrections related to date, as they are presented on the Central Register, once he has filed the specific request. Finally, the CSE undertakes the company activities that include updating the investors' share at the Central Depository / Registry.

### CSE protection

With all these initiatives, the CSE is in line with the new developments that are relevant today in the developed stock exchanges of the world. At the same time, it makes the daily dealings of the market (public companies, Cypriot Investment Firms, investors) with the stock exchange easier. As the board of the CSE, independently of the fluctuations of the index and the share prices, we believe that with these developments we are protecting the institution of our stock exchange for the benefit of the economy of our country, which is of utmost and central importance to us.

## The CSE trains its staff and personnel

### One-day seminar discussing the subject "Globalisation of Stock Exchanges"

Continuing with the training of its staff and personnel, the CSE organised a one-day seminar titled, "Globalisation of Stock Exchanges". The seminar, of which the main speaker was the former president of NOREX Alliance and FESE, and who is today a consultant on stock exchange matters, Mr. Poul Eric Skaaning, was observed by members of the Board and executive staff of the CSE.

During the seminar, subjects that relate to the latest developments of stock exchanges of the European Union were analysed, as well as the probable consequences of the globalization of small and medium-sized businesses, the phenomenon of globalization in relation to the CSE and other matters. The continuous training of staff and personnel of the CSE is one of our priorities, so that staff members remain fully up to date regarding the current developments of the international stock markets.
